OBJECTIVE

Position in digital project management / technical support / digital transformation

PROFESSIONAL PROFILE

Versatile professional at the intersection of technology and pedagogy. Former mathematics teacher who transitioned into digital and data roles, I have led several digital projects for municipalities and companies, combining open‑source tool deployment, user support, and operational project management. Autonomous, curious, and service‑oriented, I am seeking a position involving coordination, technical support, and continuous improvement.

PROFESSIONAL EXPERIENCE

Data Analyst — AI R&D (Nov. 2024 — Oct. 2025)
Pandata — Loire, France
- Built chatbot proof‑of‑concepts (design, evaluation, documentation) and conducted technology watch on AI.
- Performed data analysis for client missions: preparation, visualization, reporting.
- Contributed to the deployment of cloud and open‑source environments.

Digital Advisor — Digital Project Manager (2021 — 2023)
City Hall of Saint‑Julien‑Chapteuil (43)
- Led IT and digital projects: online appointment system, document management (Nextcloud), internal wiki.
- Conducted needs analysis, selected solutions, coordinated vendors, and supported users.
- Provided cybersecurity awareness and drafted internal procedures.

Mathematics Teacher — Contract Instructor (2016 — 2020)
French Ministry of Education — Haute‑Loire
- Taught students from 6th grade to senior year.
- Designed digital teaching tools (GeoGebra, ENT) and interactive resources.
- Strengthened skills in pedagogy, communication, and group management.

Private Mathematics Tutor (2010 — 2024)
Freelance — Le Puy‑en‑Velay
- Tailored coaching for pupils and university students.
- Designed personalized educational plans (monitoring, assessment, progression).

Other Significant Experience
- **B2B Customer Service** — ExxonMobil, Budapest: international coordination, English communication.
- **B2C Customer Service** — JC Decaux, Lyon: incident resolution and user support.

PROJECT & TECHNICAL SKILLS

- Digital project management
- User needs analysis
- Vendor coordination / specifications
- Testing, deployment, documentation
- Open‑source / cloud / security
- Python (pandas, numpy, matplotlib)
- Simple deployments (API, Docker)
- Agile methods (scrum, kanban)

SOFT SKILLS

- Pedagogy & change management
- Clear and positive communication
- Analytical and synthetic mindset
- Service‑oriented and team spirit

DEGREES & CERTIFICATIONS

- **Master "Expert in Data Science"** — OpenClassrooms / CentraleSupélec, 2024
- **"Python" Certification** — MITx (edX), 2018
- **Bachelor in Marketing (Bac+3)** — FEDE, 2009
- **Bachelor in Construction Engineering** — INSA Toulouse, 2008

LANGUAGES

- **French**: native │ **English**: fluent
- Basic level: Dutch, German, Spanish, Hungarian

INTERESTS

- Music: singing, guitar, saxophone; home studio
- Road cycling & mountain biking; tandem pilot (with visually impaired riders)
- Open‑source software and vegetable gardening

ADDITIONAL INFORMATION

- Driving licence B – vehicle owner
- Based in the Loire — available immediately
- References available upon request — Portfolio: github.com/Stabadev
